Ground #2 Ineffective Assistant Of Counsel

Point 1 Christopher Paul Huber Friday, November 1, 2019 sentencing hearing told me flat out said he did not want to be in this County doing any cases. I told him I wanted to see all the hospital records Mrs. Whitehead was working on getting from that night of the crimes. And all my past hospital stays for medical conditions for the courts. Never got to see them. Also told him never had my Miranda Rights read to me he did nothing. I told him I wanted to see surveillance video of Johnston Constriction and of Purcell Tire he said no point it was me I have the right to see it. Then I told him I wanted to see body footage he told me he could not. I also said I was not found in no vehicle how could I get charged for Resist Arrest By Flight when I was in a Building.

Point 2 Sara Quinn Zapien Thursday, August 6, 2020 Probation Revocation Hearing A week before court tells me they said I could do a long term drug treatment I told her I would do my back up if it was on my sentence she said she got a hold of P & P and they said it was on so I told her I would do it so week after this is during COVID-19 Officer Lewis CO at Jail takes me to Video Court Room I can't see court room has the time cause video messing up. Audio is cutting in and out. I try to tell my lawyer I changed my mind I want treatment I need to talk to her but Officer Lewis said I could not talk so I get sentence to my back up could not hear everything the audio was cutting in and out then at end Judge Missey laughing about giving me 10 years in prison. Next Day at Jail Ms. Zapien says she was sick did not feel good is why she did not bring up everything she said and I told her I was not guilty for some of the laws violations I received.
